

Wanted-Some Winter Weather, by Kansas,

Bright, open-winter sunshine is a pleasant thing. Upon are not conserving or promising in other directions. Warm, great crises in their national existence, and every one of open winters mean a minimum of precipitation and possi-Short winters in Kansas are too apt to that the United States is going rapidly to the dogs really had described from the sammer. Up to date south Kanbara have had no winter for 1900-1, and expectation.

If the Wreck of the Maine is Raised.

There is again talk of raising the Maine, or the wreck his areas.

There is again talk of raising the Maine, or the wreck his areas.

European countries have been obliged to resort to it and their example may be profitably followed here.

What with railroad ties, matches, wood pulp for paper, ern California. and building lumber, there is unquestionably a hig drain on the timber growth of the country. But in the meantime more and more timber is being grown and more and more mad and from and glass and brick are being utilized in the place of lumber in other directions.

## The Righteons Indignation of a Mayor,

A Eansas town that is hig enough to have a mayor sad city council is not necessarily a city of importance other reasons. There has been a revival of religion in proother reasons. There has been a revival of religion in progress, up there, for some time, a most thorough religious
swakening, which seems to have swept into the fold everywho not only stood out

It is not probable that two of the royal reasonness and
the disposal of the new
sovereign. Onborne House, where death came to his
mother, and Baimoral Castle, her much loved home in the
Scotch Highlands, were not the property of the nation.
They belonged to the queen as an individual, and they will

The sants fe is a diding largely to the sound and the passed over to the said make it as the said make it as the said make it abteration and attention. The mayor first sent the city or purchase. marshal, and subsequently the sheriff, to compel attendance upon the part of the recalcitrant aldermen, but all toreligion in any guise, set that such exception has occurred in Kansas is encouraging.

## And There Will be No More War.

The world is going to be forced to quit wars, the primoney. It is now nearly impossible for its volume to keep man's chiracos to heaven Carnegle will get through. mual reason, probably, being that there is not enough page with the increasing expenses of military establishments and of actual sugar-ments. Another reason why ward VD, how to reign. But the chances are that Eddy will disregard bis advice and fall into a hole. fighting will couse in the growing destructiveness of warmachines. The secretary of the American Peace Society in an address, the other day, predicted that all wars will end by the year 2000. It is certain that none of the Byles of today will be taking any part in a war after that three The peace secretary, however, holds that wars will cease through arbitration and because of the grewing aversion of advancing civilization to wurs in which men are made to stand up to kill and be killed. But as to the "expense" view of war. Something will have to be done soon or half of the nations of Europe will be bankrupted by their mile-

Great Britain's war expenses have increased over \$4 per cont since 1811. At that rate of increase how long will becough may be made mirrows of the robes. Which is the Bittlish treasury hold out, expecially when her states, important, whether true or red. men are now crying out that American trade competition to seriously threatening her industries and her revenues?

The reader is appalled at the suspendents costs of the in a time of peace had year, and with a population that cut much figure. The men who stole him were rank imhas increased relatively little for a century, her expenditures for war have quadrapled.

Germany is going the same headlong way. Russis is daged at the prespect, and we in this country are dricting toward a large standing army and a big war budget as fust as the sense and prudence of the people can be im-

To say nothing then, of the great destructiveness of war nuchinery, or of the repurnance of a more ethiphtened are to wholesale killing where arbitration would better would be pretty hard for Bryan to eliminate his mouth serve the ends of justice and right, there is the expense necting which is being impossible to dodge means bank. Traves of Prince Puzz's ancestors yet.

Financially the United States of America is the only Latah Microff.

power fully equipped for a prolonged war, but the people here being the rulers, the fights will be short in duration and long between times.

### Grover Inclined to be Pessimistic.

There is reason for believing that ex-President Cleveland takes altogether too pessimistic a view of this repub-Bo's future. Apparently he fears that conservatism is a his lot to be much on the sober side of life and to feel the pressure of great responsibilities. All this impelled him to winters mean dryness for Kansas. Bright, dry winters in are absolutely sure to overtake this country. The Americoursging to the victims of pulmonary afflictions can people have faced many great questions and many ble lack of moisture and mud, two essentials to profitable tion to this well established rule. Mr. Cleveland says the crops, if not of comfort. The gloom of clouds generally country will never be the same again. That may all be a blessing in disguise for Kansus. In short, we and still be better. It was not the same in 1850 that it was growing in greatness. Words of caution are not without their place and often are well timed, but those who fancy mean short crops for the summer. Up to date south Kan- have not a great deal of solid fact on which to base that

The big match front having through its agents purchased several millions of lumber, or rather some large forest tracks in the northwest some fellow handy at figures not only shows the number of matches, burdereds of the country in Cuba had nothing to do with the wrecking of the battleship. That beilef was strengthened and though of the battleship where it lay after the explosion.

Under the diroumstances the raising of the wreck would be the making serious inroads upon the timber supply of the country, second only to that which he railroad tie is making. Again a statisticing who has been a good purpose, provided it would be country, second only to that which he railroad tie is making. And then, if you want your name printed for a small consideration. It's much nicer

I am 35 years old and have been employed in the actuary department of a life inverance company for years. A little more than a year age I began to have very severe head,
aches, from which I was not free night or day. My doctor told me that it was from my
stomach and the want of exercise; so, header taking his medicine, I purchased a hisyale
to ride for exercise. I never knew then what it was to be in any other way than commipated, my bowels not moving sometimes in three days. My weight was reduced to 117
pounds, for I was slowly starving myself rather than eat a good meal, knowing what the
after-effect would be. About five or six weeks ago two triends and myself were esting
dinner when my troubles came up as a tubiect of conversation. One of nor friends a
small packet out of his pocket and handed me two Talenles, saving: "Take one after
you finish eating and one before you go so bed. Then buy a box so marrow and yearli a timal packet out of his pecket and named me (no Tabules, saying: Take one after you finish eating and one before you go so bed. Then biny a box so-morrow and you'll be supplied at the results. I purchased a package of Rigans Tabules the next day. The lists package seemed to relieve use so much that I purchased the second, and have been taking them ever since. They have success made a man of me again, and I only wish that I had a "before not after taking" nitrans. Including the property of the second and the second of the secon possible that such a change could have taken place in such a short time. I never tire recommending them to my friends.
